

IMPORTANT INFORMATION

The fertilizer in this bag is one of the best fertilizers available. Gro-Power® 5-3-1 is both a fertilizer and soil conditioner. Various soil bacterial strains tend to act upon the soil to condition it and help produce an environment in which the plant can achieve maximum results. Nitrogen, Phosphorous, Potassium, plus micronutrients are all included to help feed the plant.

Gro-Power® 5-3-1 is an odorless product with Humic Acids. Humic Acid may aid in the uptake of micronutrients.

Use Gro-Power® 5-3-1 to promote "Nature's Natural Way" and to aid in creating a soil which, with the addition of potash tends to lessen many of the plant diseases.

LANDSCAPING INSTRUCTIONS

1

HANDFUL....
How to Measure
 Put hand in GRO-POWER® and retain as much as can be held in the hand with fingers closed to palm.... (approximately one table-spoon).

For using GRO-POWER®

2

HOW TO APPLY... GRO-POWER® ON PLANTS:
 Dig the hole the regular size for plant. Put GRO-POWER® in bottom of hole and cover with 1" to 1 1/2" of soil. (For amount see illustration.)

3

BACKFILL THE HOLE AND BROADCAST the GRO-POWER® around the plant. Water thoroughly. (For amount see illustration.)

4

1 GALLON PLANT

1 handful in hole, cover with soil. 2 handfuls on backfill in 1 foot circle.

5 GALLON PLANT

2 handfuls in hole, cover with soil. 3 handfuls on backfill in 1 1/2 foot circle.

15 GALLON PLANT

3 handfuls in hole, cover with soil. 3 handfuls on backfill in 2 foot circle.

24" TO 25" BOX

4 handfuls in hole, cover adequate soil. 3 handfuls on backfill in 3 to 4 foot circle.

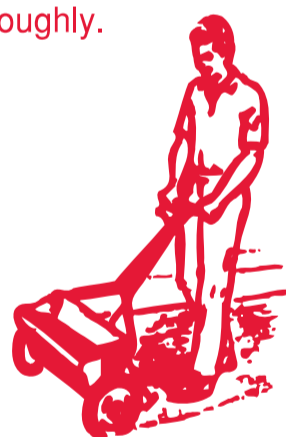

5

SOIL PREPARATION: 150-200 lbs. per 1000 sq. ft. Rototill to a depth of 4" to 6". Apply remaining 25 lbs. on top 45 to 60 days after grass is up.

6

EXISTING TURF: Aerify if possible, the existing turf on first application and broadcast GRO-POWER® at 20 to 30 lbs. per 1000 sq. ft. Water thoroughly.

USE: GRO-POWER® Planting Tablets for extended feeding/soil conditioning of plants.

General information GRO-POWER® should be applied 3 times a year at 20 to 30 lbs. per 1000 sq. ft. Water as soon as possible.

IMPORTANT NOTE: DO NOT apply GRO-POWER® on top of another fertilizer.

GOLF COURSE USE: Broadcast GRO-POWER® on greens, tees and aprons, open cyclone spreader to #5 and apply two ways. Fairways: broadcast at rate of 500 lbs. to 1000 lbs. per acre two times a year.
